Subject: Inhance Technologies follow up
Attachments: ATT00001.txt

Importance: High

Jeff,

I hope this email finds you well and you and family are staying safe and healthy.

It was great to connect with you and the rest of the EPA team on our discussion on August 5th, thank you for sharing your time with us.

I was following up on our action items form the call. You had requested additional information on the Anvil 10+10 modeling work. To that end, we would like to meet with you over a teams call and share some of the details behind the modeling including the datasets.

Would you have availability the week of September 13th, or the week of September 20th? Let us know your availability and I can schedule a teams call.

Bill Farland and myself will be on the call from our end.

Looking forward to our discussions.

Prakash Iyer
Senior Vice President - Business Development & Technology
